

## Warehouse TERRADA Established the Nation' s Largest Rental Wine Cellar For Individual Use

– Capable up to 3,000 bottles, the same potential as underground caves at wineries –

Warehouse TERRADA (Shinagawa, Tokyo / President and CEO: Yoshihisa Nakano) is pleased to announce the new walk-in type rental cellars for individual use, which are capable up to 3,000 bottles in each room. These wine cellars become available from April 1st, 2016.

Warehouse TERRADA has been cultivating better storage technology and expanding our business beyond traditional warehousing. “Safe-keeping and preserving” items under the best conditions require high expertise, and we have acquired it through investigations with specialized agencies and investments for our facilities. Capable up to 3,000 bottles in each room, the newly established wine cellars have their own temperature and humidity controller which can be set in two patterns.. Just like the underground caves at wineries, we provide high level of environment for owners; creating their preferred maturation, aging bottles according to the term of maturation needed, and more. We will continue working on the better safekeeping/preserving technology and support everyone' s abundant wine life.

**[About Warehouse TERRADA Wine Cellars]**

Since the foundation in 1950, Warehouse TERRADA has been cultivating better storage techniques and expanding our business beyond the traditional warehousing. We have started rental wine cellars since 1970s and kept improving facilities to meet the world standard of storage environment with the temperature of keeping  $14^{\circ}\text{C} \pm 1^{\circ}\text{C}$  and humidity at  $70\% \pm 10\%$ , which have been receiving high acclaims in the industry. Now we have 4 locations around Tokyo (Shinagawa, Setagaya, Futakotamagawa, Tsuzuki-Shinishikawa), and those spaces have the same potential environment as underground wine caves at wineries. We have an online service, “CLOUD WINE CELLAR,” that enables owners to take their wine into their cellar from one bottle. Totally 230,000 bottles of wine are currently preserved at our cellars under the best environment (as of February, 2016).
