## Update for “Tamashii Garage” Service Web Page, Follow-up for Figure Collectors

Warehouse TERRADA (Shinagawa, Tokyo / CEO: Yoshihisa Nakano) is pleased to announce that we have updated “Tamashii Garage” service web page; the service is provided together with Bandai Co., Ltd. (Taito-ku, Tokyo / President & CEO: Masaru Kawaguchi).

Since the launch of “Tamashii Garage” on May 2014, we have been thinking from users’ view, developing the most suitable boxes for figure preservation, and storing items in a temperature and humidity-controlled warehouse. With this update, only an e-mail address and a password are required for registration. Also, the new website design is optimized for smartphones and tablet devices, and an original video will be released. Warehouse TERRADA is going to utilize our newly patented system “minikura API,” and continue to offer unique services with various business partners.

**[About Tamashii Garage]** [https://tamashiigarage.com/index\\_en](https://tamashiigarage.com/index_en)

Tamashii Garage is a service especially for figure collectors provided by Collectors Division of Bandai Co., Ltd. and Warehouse TERRADA.

What users have to do is to purchase a specialized box, pack the collection to the box, and send it to us. After that, it would be possible to manage the collection visually online. Since the users

will be able to use the space where the collection used to require, this service is going to expand the possibilities for new collections. The monthly fee varies depending on the size of the box ("Standard" option is 300 yen and "Deluxe" option is 600 yen).

**[About minikura]** <https://minikura.com/about/en.html>

"minikura" is the first storage service in this industry that incorporates the storage and online services. The only thing that users have to do is to pack items to a specialized ("minikura" original) box and send it to us. The shipping fee is free. Our staff will take photographs of each item with the utmost care, so it would be possible to manage the items visually with ease online. Dry cleaning for clothes is also available as an optional service. The items can be listed on "Yahoo! Auction" and posted to the community site simply. Also, "minikura API," a logistic support, is provided to various companies. And what is more, Warehouse TERRADA is actively supporting startup companies and invested to Air Closet Inc., VONOVO inc., ART STAND Co., Ltd., and Sumally.
