 - Multiple payment methods (credit card, bitcoin, etc.)
 - Providing a packaged API to each enterprise enables to develop new business promptly.
- * They will be sequentially released by March 2018.

[About MINIKURA] (<https://minikura-logitech.com/>)

MINIKURA is a cloud storage service and a start-ups incubation business by Warehouse TERRADA. In 2012, based on the concept that any user can access storage of his/her own from any place, “minikura” (<https://minikura.com/>), a cloud storage service was released, which enables users to manage their storing items online. Utilizing MINIKURA API, the original operation application especially developed, MINIKURA is offering the original cloud storage service to provide the logistic system to various companies. Also, MINIKURA is operating “Start-ups Incubation” business, supporting start-up companies in funding and system building, and offering new services with these companies useful for daily living.

[About Warehouse TERRADA]

Since the foundation in 1950, Warehouse TERRADA has been cultivating better storage techniques and making proactive action on the capital investment in order to store and preserve items under the best environment. Expanding our business beyond the traditional warehousing, we are currently pursuing the preservation and restoration technique to raise the value of stored items and pass it on to the next generations. We are also developing a business to create a hub to output the new culture by making a full use of our knowledge as a professional in space creation. Our storage technologies for items that require high expertise such as artworks, audio-visual media, and wines have been receiving a great reputation by each industry.
